Amending a CHP in PCIS

****Please be advised that PCIS displays MeHR as SEHR****

How to amend a Current Health Profile with or without a patient consultation

The CHP may, at times, need to be amended or resent. To perform this process, click on the Blue Hyperlink, **Send CHP to SEHR** from the Consumer's PCIS Clinical Summary Page.

The Confirm Current Health Profile page will display. This gives you the option to 'un-tick' any medical event information if it is requested by the patient. Un-ticking items will prevent them from being sent through to the MeHR on the CHP. After making any changes, click **Send** to transmit the CHP to MeHR or click **Cancel** to return to the PCIS Clinical Summary Page without sending a CHP.
