My eHealth Record

Sending Initial CHP from PCIS

****Please be advised that PCIS displays MeHR as SEHR****

Sending the initial Current Health Profile following the first consultation after and patient has registered with the MeHR

When a Consumer is registered for My eHealth Record, PCIS will automatically prompt to send an initial Current Health Profile after the first consultation is completed.

To initiate the sending of an initial Current Health Profile, follow the usual process of ending a consultation in PCIS by clicking on the **end this consult** option.

Current Visit

Name: Connected, Avocado (Female) Id: 2002644 DOB: 19/07/1990 (21 yrs)
SEHR: Registered

The **End Consult** menu will display at the bottom of the consultation page. The **Send to SEHR** tickbox is automatically defaulted to send. If the consumer would not like their consultation to be sent to the My eHealth Record then simply un-tick this option.

Tick the **End Visit** tick box and then click the **OK** button as per the normal procedure of ending a consultation in PCIS.

The Confirm Current Health Profile page will appear. This gives you the option to 'un-tick' any medical event information if requested to by the patient. Un-ticking items will prevent them from being sent through to the MeHR on the CHP. After making any changes click **Send** to transmit the CHP to MeHR or click **Cancel** to return to the PCIS Clinical Summary page without sending the CHP.

After sending the Current Health Profile to My eHealth Record, you will then return to the PCIS Clinical Summary.

Clinical Summary Name: **Connected, Avocado (Female)** Id: **2002644** DOB: **19/07/1990 (21 yrs)**

SEHR: Registered

Allergies: Allergy Status Unknown Send CHP to SEHR Print Client Summary Report
